INVESTMENT POTENTIAL

Having been stated as aqua culture center, then Gayo Lues becomes suitable place for aqua culture development, such as mujair fish, cat fish, indigo fish and gold fish. Other endemic fresh water species of fish rarely finding in other region also exist in Gayo Lues, such as Jurung dan Kerling fish. Supported by large of land area, any effort or business alternative oriented to develop aqua culture would be attractive if it is undertaken in Gayo Lues.
