Aceh Tamiang Regency is a splitting of East Aceh Regency. Regency with *Kaseh pape setie mati* as slogan lies closed to North Sumatera province.

Although not as rich as North Aceh, Aceh Tamiang Regency area is rich in oil and gas. Its oil production center lies in Rantau District. Besides, in the district, there is also Pertamina production unit, which has been operating since tens of year.

The area is also well known as rubber and oil palm plantation centers. There are not less than 10 (ten) national and foreign private companies operating in Aceh Tamiang Regency, such as PT. Socfindo, PT. Mopoli Raya, PT. Parasawita, PT. Betami and so forth, not to mention, people's farming in large area, such as areca nut, oil palm and rubber.

In addition, Aceh Tamiang Regency makes transportation as reliable sector for its strategic position. Being flown through by two big rivers, Tamiang River (split into Simpang Kiri and Simpang Kanan) and Kaloy River, water transportation is one of alternative popular mode for Aceh Tamiang Regency.

Aceh Tamiang Regency also makes agriculture, processing industry and trade as reliable sectors. Aceh Tamiang Regency has a number of potential tourism objects if administered and managed seriously. Seven-storey waterfall, Swallow cave, Sewruway Coast is some samples of the tourism objects in Aceh Tamiang Regency that could be possibly managed for Local Genuine Income.

Aqua culture

Aceh Tamiang is regency with large potentials in aqua culture and cul-
